Subject: Non-Review of Notice of Intention to Commence Large Mining Operations,
Wright/Garff Resources LLC, Wright/Garff Resources LLC Mine, S0430032, Summit
County, Utah

Dear Mr. Rodgers:

On December 8, 2008, the Division received a notice of intention to commence large mining operations for an area within Section 20 of Township 1 South, Range 5 East, SLM. The Division has decided not to process this application, but please note that this is **not** because it overlaps the permit area for the Peoa Blonde quarry (M0430012). In compliance with the order of the Board of Oil, Gas and Mining, the Division will review a plan for this area, but there are several items that need to be included in the application before the Division can commence a review.

1. The Division needs to receive an additional permit fee of \$350.00 because the existing small mine would be converted to a large mine.
2. The application does not contain a signed statement that the operator will conduct reclamation as required by the R647 rules. Without a signed statement, we cannot verify that the application was submitted by a responsible official of Wright/Garff Resources.
3. Several maps and cross sections are required, and no maps were included in the application. The application says they will be included at a later date, but the Division cannot begin a review without them.
4. The application includes no acreage figures, and it is also missing much of the site-specific information needed to make an impact assessment.

Please re-submit the application when you have been able to include these items. If you need further information, please contact me at (801) 538-5261.

Sincerely,

A handwritten signature in black ink, appearing to read 'PBB' followed by a stylized flourish.
